

Web Design: Ethics Program

3/12/15

Class #6: Ethical Tech Use in School

Priority I

Web Design

- How is class going?
 - Mr. Donaghy?
- What are you working on?
- Is there anything you need to do before moving on to Priority II?

Priority II

The Development of Ethics in Education

- [Lifting the Ban on Technology](#) (NYT Article)
 - Changed due to parental concerns.
- Educational Use of Tech in School
 - Research
 - Work
 - Communication
 - Surveys
 - What else?

Priority II

The Development of Ethics in Education (Review)

- Western Thought
 - Why: Ask a question.
 - Reason: Consider multiple answers.
 - Empiricism: Support those answers with facts.
- Kohlberg Theory
 - Consequence Thinking: Considering the Self
 - Moral Thinking: Considering Others
 - Ethical Thinking: Considering Institutions

Priority III

Academic Work
(In Groups)

- Ethical Tech Use in School
- Experiment: Four groups will respond to prompts and we will compare results as a group.
 - Group #1: Students with computers.
 - Group #2: Students without computers.
 - Group #3: One student with a computer.
 - Group #4: One student without a computer.

Priority III
Academic Work
(In Groups)

- Prompt: Make a list of reasons WHY and WHY NOT students should be allowed to use cellphones in class.
 - Write on sticky notes.

Priority III
Academic Work
(In Groups)

- Prompt: What kind of information would a school benefit from knowing in real time?
 - Did you eat breakfast today?
 - What time did you go to sleep?
 - Did you do your homework at home?
 - Have you ever been harassed on the internet?
 - Have you ever been subjected to a civil rights violation?
 - Do you feel safe coming to school? (snow, threat, etc.)

Priority III

(Classwork)

- In groups or on your own, develop a survey you would like all MHS students to respond to.
 - Come up with at least one question.
 - [Survey Monkey](#) trial.

Conclusion
